## Preparation

Remove loose dust / grit etc. using a vacuum cleaner, Bona Dusting pad or other dry cleaning method. It is important that the floor is cleaned before wet cleaning is carried out.

## Application

1. Spray a few square metres of the floor with Hard Surface Floor Deep Cleaner. Let the cleaner work for a minute or so on the surface.
2. Wipe / rub the surface using a Bona Deep Clean Pad. It is very important to rinse the Deep Clean pad well or replace it when it becomes dirty; cleaning pads cannot not remove further dirt / material when already full.

To remove stubborn spots, rubber heel marks, sticky spills, etc. spray Hard Surface Floor Deep Cleaner directly onto the affected area. Allow it to work for a few minutes and then scrub the spot clean with a Bona Deep Clean Pad.
